BRAND PRESENTATION BRISTON WATCHES

THE FRENCH WATCH BRAND
PREMIUM SPORT CHIC

BRISTON 

BRISTON

Premium Sport Chic Watches

THE ORIGIN AND THE FOUNDER :

Because sometimes you must dare to follow your dreams, **Brice Jaunet** launches his own new brand after 15 years in the watch industry. Over those years, he worked for two of the biggest watch groups (Richemont & LVMH).

Entrepreneurial spirit passed down his grandfather, Jacques Jaunet, co-founder of the sportswear brand "NewMan" in 1967.

Resulting from his thoughts, his researches & desire to **create a beautiful, true & authentic timepiece** but also **accessible**.

From his studies specially in Oxford, from his travels around the world & from his passion to the Sport, a «Sport Chic» spirit will naturally come about the Brand.

The BRISTON spirit was born.

BRISTON

Premium Sport Chic Watches

THE BRISTON SPIRIT:

The British « **Sport Chic** » and its famous « **Smart & Casual** » dress code defines the inspiration & spirit of the BRISTON new brand.

From this spirit, **BRISTON** creates its own particular style with a strong classical watchmaker DNA but bringing this smart & casual touch with innovative raw material & colors.

BRISTON is the best balance between a luxury timepiece and a chic but unconventional accessory & is clearly positioned as a lifestyle “Premium Sport Chic” brand on the upper level of the entry watch market priced between 150€ and 530€ (except for GMT at 1250€)

Clubmaster: fusion of the shape & the raw material

The Clubmaster model is born with a **vintage and neo-classic spirit**.

The daring **cambered square** shape of the watch (cushion) inspired by the roaring twenties breaks the code of this standardized & rounded entry price market which gives it a unique and very particular true watchmaker style.

For the first collections, BRISTON worked in partnership with **Mazzucchelli**, the worldwide supplier for the **cellulose acetate**.

The strong & waterproof **NATO nylon strap** comes reinforcing not only the fancy aspect of the watch but also its vintage, casual & its “effortless chic” touch.

BRISTON proposes more than 25 plain and stripped colored **NATO straps**, they are interchangeable and available in 2 sizes: the G10 NATO for the Purists and an exclusive NATO designed by BRISTON with a moveable loop and a smaller length.

THE CELLULOSE ACETATE

Acetate or cellulose acetate is a natural polymer that was discovered in 1865 and developed by the Swiss brothers Camille & Henri Dreyfus in the early 20th century.

This "plastic" material comprises **70% plant and cotton fiber**. It is a **natural material**, both biodegradable and **hypoallergenic**. This material is particularly valued for **high-quality eyewear**.

PROCESS: The blocks of acetate are worked **crafted** in a time-honored fashion, dedicated process. They are mixed, dried and cut into rectangular slabs. Then they are heated, soldered, cut and filed into shape. Finally they are gently polished over 4 days.

BRISTON collaborates with the worldwide leader for acetate in **Italy, Mazzucchelli**, to make its own acetates and colors.

MAIN ADVANTAGES :

- **Innovative material** which allows a plenty of scope for creativity
- a **peerless rendering that is sensual to the touch and highly resistant over time**.
- Singular aspect of each "**tortoise shell**" acetate case - **unique**

THE « CAMBERED SQUARE » SHAPE

WHY SUCH A SHAPE?

- for the visibility & splendor of the material
- for breaking the standardized entry watch market & for a true differentiation differentiation
- for neo-classic & real timepiece aspect of the watch
- a mono-shape which could be classic, sporting or/& vintage in terms of in terms of product development
- for personal taste & inspirations.
- .

THE ORIGIN OF NATO STRAP

With the current mood for vintage and sporting chic, what could be more natural than for BRISTON to bring back the NATO watch strap.

HISTORY OF NATO STRAP :

- French word "natte" meaning "matting"
- In 1964 - Sean Connery as James Bond in "Goldfinger"
- NATO (North Atlantic Treaty Organization)

THE NATO STRAP

MAIN ADVANTAGES :

- **highly resistant both on land and underwater,**
- **Interchangeable** - One of the latest trends, **NATO is used as an accessory** that can be easily changed depending on your mood.
- **timeless, very resistant, hypoallergenic, extremely comfortable and easy to wash.**
- **For sporty and military types, today it is also seen as chic and dandy.**

BRISTON's NATO straps are **exclusive, and perfectly harmonized** with the acetate colors and are available **in three sizes:**

- **the G10** (280mm of length & 20mm of width) = All **Clubmaster Chronograph & Date**
- **A special size** (245mm of length & 20mm of width) with a removable buckle = **Clubmaster HMS Date & all Clubmaster VINTAGE** on NATO straps
- A **smaller size** (230mm of length & 18mm of width) with a removable buckle = **Clubmaster CHIC**

BENEFITS

The Product

- Our key differentiating element, the cellulose acetate, twisted from luxury eyewear, and featuring a recognizable horological shape - the cambered square shape -, gives our watches a very high perceived value, an authentic DNA and a strong identity,
- Since the process to produce the acetate is fully handmade, every single watch case in acetate is totally unique, with its own colors and subtle shades,
- Every model features refined watchmaker details, as well as a reliable Japanese movement, Miyota or Seiko, depending on the models,
- The straps' interchangeability makes the Clubmaster the perfect accessory to accessorize any outfit, and allows the client to give several lives to a single watch case, illustrating and giving sense to our "Lifestyle" philosophy,
- BRISTON watches are accessible luxury, given an attractive price positioning with a retail price between 185 USD up to 1600 USD.

SALES ARGUMENTS

For the distributors & Retailers

- “Fresh”, unconventional & new French brand, with an English-sounding name,
- Aiming at a differentiation through the product, adopted material and shape,
- Providing affordable/accessible luxury,
- Destined to high end clients,
- Allowing store traffic enlargement,
- Providing with a very attractive price positioning, meaning affordable orders of 20 to 30 pieces,
- A strong stock rotation: from 3 to 30 rotations in one year,
- BRISTON is a “New Wave” independent brand, built exclusively on the product, a start up with a strong and paced development: presence in 49 countries with more than 800 stores across the world,
- Through a careful, selective and luxury orientated distribution strategy,
- With an important potential, in terms of volume and development,
- Given a very high perceived value of the product, thanks to the acetate and the subtle watchmaker inspired details.
- BRISTON is the authentic “Time Accessory”

DISTRIBUTION

BRISTON est distribué dans plus de **1000 points de vente** à travers **50 pays dans le monde** dont The Conran Shop, 10 Corso Como, Beams, Restir, Santa Eulalia ou Harvey Nichols. **En France**, nous comptons à fin février 2019 plus de **cent quarante points de vente** parmi les meilleurs HBJO mais aussi Merci, Printemps et Le Bon Marché.
