CLUBMASTER SPORT

FEBRUARY 2018
NOVELTIES

BRISTON 

The New CLUBMASTER SPORT

Following the success of the Trendsetters collection on the Clubmaster Classic, BRISTON decides to widen its **SPORT** line and reaffirm its character.

Launched this winter, these new Clubmaster **SPORT** are presented in four versions: black matt, Safari, Alpine Hunter or Jungle. They will seduce both the urban devotees in their quests for dreams and evasion, as well as the globetrotters seeking for freedom and extreme adventures.

Technical, reliable and highly evocative, the four versions are shaped for the contemporary adventurer in need of a tool which only limits are those of its imagination and courage

Featuring a 42mm case in matt cellulose acetate, provided with a PVD treatment in black or matt khaki, that highlights these novelties' strong personality and celebrates the art of « camouflage ».

These models are equipped with a tachymetric scale indicated on the inner ring. Besides reinforcing the sporty look of the watch, the tachymeter allows to measure the speed of an object on a one kilometer distance. The double layers dial crafted with embossed indexes in stainless steel treated in black or khaki PVD, giving the watch a strong character without removing its sobriety.

The robust, waterproof and interchangeable BRISTON NATO straps naturally reinforce, by their colors, the characteristic spirit of each watch on this new collection.

The New CLUBMASTER **SPORT** STEEL

Like the first models of the Clubmaster **SPORT** collection in steel, BRISTON has this time reworked the steel, with « gunmetal » and bronze PVD treatments, to create 2 one-of-a-kind stealth versions.

The « gunmetal » and bronze colors are the result of a process called Physical Vapor Deposition, this treatment offers a better protection of the watch in case of extreme uses of these timepieces, made for adventures' amateurs. The use of the PVD treatment on the watch case reinforces the character of the watch, that is, by giving it a strong allure and personality.

Clubmaster **SPORT**

BRISTON: when time becomes the accomplice of our relaxing hours, when time becomes an unconventional accessory...

Brice Jaunet, BRISTON's founder, has a wealth of experience in the luxury watch industry, dating back 15 years. Brice's passion and proven market knowledge led to the creation of BRISTON as the synthesis of a personal and professional life dedicated to the watches.

Resulting from his thoughts & researches, Brice Jaunet wanted to create a beautiful, true & authentic timepiece but also affordable. From this spirit, BRISTON creates its own particular style with a strong classical watchmaker DNA but bringing this smart & casual touch with the use of innovative raw material and a variety of colors that creates its authentic style.

Twisting the cellulose acetate, traditionally used in the eyewear industry, and proposing this raw material in unexpected colors to adorn its collection is an innovation that reinforces BRISTON's sport chic look & British spirit. Modern, chic but yet casual, the BRISTON watches seduce either Hipsters, Dandies, Preppies & Trendsetters, - whether they are men or women - or just watch aficionados.

From the very beginning, the NATO strap has been chosen by the founder to highlight the brand's marked DNA: the British and sport chic spirit.

Because time flies inexorably, BRISTON has already 5 years of existence. Five years after its successful launching at Colette in Paris, five years through which the young watch brand has established itself.

Distribution

BRISTON is now distributed in more than 870 points of sales in 50 countries around the world including The Conran Shop, 10 Corso Como, Beams, Restir, Santa Eulalia or Harvey Nichols. In France, we count up on more than hundred and twenty doors at end of January 2018 including premium watch stores and also Merci, Printemps or Le Bon Marché.
